There are those who will hold that this is one of the best reasons for changing the present system. In any event, the liquodealers do not wish the present system on making appointments for political reason continued.

Mr. Striker, the Grit M.P.P. for Prince Edward, is a candidate for re-election. Mr. Striker thinks be can make some poli-ticate as a bait before the electors of his country. So, to oblige his candidate, Mr. Mowal declines to decide in the premises. A nois little cann, truly, in which the interests of Belleville and a large part of Prince Edward are sacrificed for the ad-vantage of the Grit candidate.

It has always been the boast of the fol-wors of the Movat Government that they ere members of Rieform Government, at it often occurs that reforms, so called, at the other control of the control of the control ary the rights of the people. We are not questioning the shilty of the act once raised.

We are not questioning the shilty of the Chief to fulfal his dates, but we question the right of any irrest consiste body decreating what salaries we shall pay and what men we shall employ on the Police force. This cought to be the privilege of the people's representatives, as it is from the processe of the ratepayers—many of them who keep their families on a dollar or two dollars a day—that the Ohief draws his salary of a thousand dollars per annum, and the poor man who pays the salary should have the privilege of asying what that salary should have the privilege of asying what that salary should be but the Oaise forestment have taken that right from the Municipal Councils.

By your votes on Wednesday, ratepayers of Bellsvills, you have the privilege of showing the Mowat administration low you appreciate such high banded tyrannical acts.

But the seutence quoted mistakes the true Grit politician's character. ### A FEW FACTS ON LIFE ASSURANCE

The legally required deposit is in the hands of the Receiver General, and the Company amess under the supervision of the Dominion Inspector of Insurance.

The more vorusan and yautrums a Company becomes, the greater are the efforts made uncompulous agents of riral Companies to misrepresent it, in the hope of causing dissatistics and benefiting the Companies it for—Folloy Holders of "The Osyamo" are thought against all such, no matter how plausible a story they tall.

The benefits of "The Ostario" are every year becoming more evident by its decreased ates; Policies not yet ten years in force having their premiums reduced to LESS than ONE MALF. Notwithstanding these reductions "THE ONTARIO" has invested a LARGER Reserve (in pro-portion to its liabilities) than any other Canadian Company, or any Foreign Company, for the benefit of Canadian Policy Holders.
